

About Love

Caring about you without a doubt in my mind. Forever young with the memories we have accumulated. Good times with the people we care. Good and bad memories with the people we care. Geeking out with friends. Laughing and Making weird signs with friends. Mango is love. Love is kind. Pets doing funny things. Momo is very close to becoming love. To find a toilet in the times of trouble. Walking with nature through the ups and downs all around. At least love yourself. Sound of calming peaceful river flowing downstream and hushing of winds. Forgiveness is love. Kicking balls and scoring goals is very much satisfying. Music is Love. Every time I play that thing it gets me all worked-up. The music of the piano with an octave shift in the note fingering up and down, slow and fast, hard and soft all charged up, passionately playing. The harmonization of all the different instrument in the orchestra synchronizing. Hitting that beat together in the band. That perfect timing hits the good spot.
